Live Webinar:

STOP THE SNEEZE
STOP THE WHEEZE

14th October 2021 (Thursday) | 4:30 PM to 5:45PM (MYT)

The relationship between allergic rhinitis (AR) and asthma is well established. Asthma and rhinitis are so closely linked that control of one affects the control of the other. Therefore, it is crucial to achieve rhinitis control in patients with co-morbid asthma.

In this live webinar, we have a speaker from the Respiratory specialty to share clinical insights on the diagnosis and management of upper and lower airway disease.
