ERS Summer School: Adult respiratory medicine

The 2018 ERS Summer School in adult respiratory medicine is now open for registrations.

The Summer School offers a comprehensive overview of each of the major fields of adult respiratory medicine based on the ERS HERMES syllabus, and is an excellent way for all respiratory professionals to update their knowledge.

Participation will also provide medical professionals with all of the skills required to test themselves against European standards in the [ERS HERMES examinations](#), taking place at the ERS International Congress in Paris. Limited bursaries are available until 25 February, 2018. Participants on the adult Summer School can also register for the [ERS HERMES self-assessment course](#) for just €50, where on-site experts will provide further hands-on exam preparation.

This year's Summer School will take place in **Lisbon**, Portugal on **20-23 June, 2018** and will cover the following topics:

- Pulmonary function testing
- Respiratory failure
- Lung imaging
- Respiratory infections and tuberculosis
- Pleural, mediastinal and chest wall diseases
- Thoracic tumours
- Airway diseases
- Pulmonary vascular diseases
- Interstitial lung diseases
- Sleep-related disorders
