

APAC Anti-Infectives Academy

Cordially invites you to join
a live webcast:

CPDE21176

Malaysian Time : 8:30pm, November 24th, 2020 (Tuesday)

The Right Antibiotic: Principles of Appropriate Anti-Microbial Therapy.

Professor Ronald Grossman

- Professor of Medicine at the University of Toronto.
- Chief of Medicine at Credit Valley Hospital.
- Former chairman of the National Information Program on Antibiotics (NIPA).
- Author of various Canadian, American and International Guidelines:
 - Management of community-acquired pneumonia.
 - Management of hospital-acquired pneumonia.
 - Management of acute exacerbations of chronic obstructive lung disease.

This live webcast will use evidence-based materials to address:

1. Importance of diagnosing infections - advancing and developing diagnostics.
2. Framework: Right antibiotic, fundamentals of prescribing antibiotics.
3. Appropriate dosing and treatment duration, optimizing drug therapy.
4. Principles of empiric vs targeted therapy, smart decisions.

Language: English

This live webcast will include a Question & Answer session offering participants an opportunity to discuss questions directly with the faculty.

Join us for the live webcast:

In this presentation Professor Ronald F. Grossman will use the clinical setting of pneumonia to address appropriate use of antimicrobials, diagnosing infection and prescribing therapy appropriate to the suspected or diagnosed infection.

- Learn how using appropriate dosing and treatment duration can optimise antibiotic therapy in accordance with management guidelines.
- Learn the key criteria for selecting empirical therapy.

Official Launch of the Anti-Infective Academy:

- The AI Academy has been created to provide an educational resource for the anti-infective healthcare community and to support the appropriate use of antibiotics to treat infections in hospitals and in the community.
- The content of the website has been developed in collaboration with an international steering committee of experts, chaired by Professor Grossman, who will officially launch the website before giving the inaugural presentation.

This live webcast will be in English and include a live Q&A session providing you an opportunity to interact directly with Professor Grossman.
