OBJECTIVES

1. Targeted for medical officers, paediatricians, paediatric respiratory fellows, staff nurses and paramedics involved in the care of paediatric patients on long term ventilation (LTV)
2. This workshop covers a wide range of topics in paediatric long term ventilation, including:
 - ❖ Overview of LTV in paediatrics
 - ❖ Basic to advanced modes of paediatric LTV
 - ❖ Practical aspects of LTV
 - ❖ Assessment pre and post LTV application
 - ❖ Acute conditions in LTV patients
 - ❖ LTV in neuromuscular diseases
 - ❖ LTV in sleep disordered breathing
 - ❖ LTV in patients with tracheostomy
3. This workshop also provides an opportunity for all participants to have hands-on experience during the practical session on:
 - ❖ CPAP
 - ❖ BiPAP
 - ❖ Life support ventilator
 - ❖ Interface/Circuit
 - ❖ Tracheostomy
 - ❖ Gastrostomy
