

EVENT REPORT

Bronchoscopy Next Level Workshop

Date: 4th July 2026 (Saturday)

Venue: KPJ Damansara Hospital 2

Organized by: Persatuan Kesihatan Paru-paru (PPKP)

Endorsement:

- 1) Malaysian Thoracic Society (MTS)
- 2) Malaysian Association for Bronchology and Interventional Pulmunology (MABIP)

Introduction

The Bronchoscopy Next Level Workshop was successfully held on 4th July 2026 at KPJ Damansara Specialist Hospital 2. The workshop was jointly organized by Persatuan Kesihatan Paru-paru Kebangsaan Malaysia (PPKP), in collaboration with KPJ Damansara Specialist Hospital 2 and KPJ Healthcare University. The workshop was endorsed by the Malaysian Thoracic Society (MTS) and the Malaysian Association for Bronchology and Interventional Pulmonology (MABIP).

The programme was designed to provide an advanced learning platform for respiratory physicians, trainees, and healthcare professionals seeking to enhance their knowledge and technical skills in diagnostic and interventional bronchoscopy. Through a combination of expert lectures, case discussions, and hands-on practical sessions, participants were exposed to contemporary bronchoscopy techniques and best clinical practices.

Objectives

The objectives of the workshop were to:

- Enhance participants' knowledge of radial endobronchial ultrasound (EBUS), from bronchial branch tracing to procedural planning and preparation.
- Improve competency in radial EBUS through structured hands-on simulation and practical training.
- Provide updates on recent developments in radial EBUS from conventional to robotic-assisted bronchoscopic approach.

Organizing Committee

Advisor: AP Dr Aisya Natasya Musa

Organizing chairperson: Dr Wong Yen Shen

Vice organizing chairperson: Dr Syahrinnaquiah Samsuddin

Secretary: Dr Am Basheeri Alias

AJK:

1. Prof Dr Ahmad Izuanuddin Ismail
2. Dr Mohd Arif bin Mohd Zim
3. Siti Noor Aishah Binti Zahari
4. Nur Atifah Binti Zakaria
5. Mohd Anas Farhan bin Halim
6. Muhammad Hazreeq Irfan Bin Mohd Hazrul
7. Simaa Rashidah Binti Sulaiman
8. Nurul Nabila Binti Arif
9. Azimah Binti Abdul Aziz
10. Mohd Nazeri Bin Kamarudin

Programme Overview

The workshop consisted of a series of expert lectures from local to international speakers. There were also interactive case-based discussions and hands-on simulation sessions. Participants had the opportunity to refine their airway anatomy knowledge in 3D and improve skills in bronchial branch tracing with CT correlation. The programme emphasized procedural safety, diagnostic accuracy, and the application of advanced bronchoscopy techniques in modern respiratory medicine.

Participation

The workshop was attended by 29 doctors from internal medicine physician, respiratory fellows and consultant pulmonologists from hospitals and institutions across Malaysia.

Participants actively engaged throughout the programme, particularly during the practical sessions and interactive discussions, demonstrating strong interest in expanding their procedural competencies.

Feedback and Outcomes

Overall feedback from participants was highly positive. The workshop was well received for its balanced combination of lectures and practical training.

Key outcomes included:

- Improved understanding of bronchial airway anatomy.
- Increased confidence in bronchial branch tracing with CT correlation.
- Enhanced knowledge about the radial EBUS procedures.
- Valuable opportunities for networking and professional collaboration among participants and faculty members.

The workshop successfully achieved its educational objectives and provided a meaningful platform for continuing professional development in interventional pulmonology.

Conclusion

The Bronchoscopy Next Level Workshop was successfully conducted and achieved its intended objectives. The programme provided participants with valuable updates, practical experience, and opportunities for professional interaction, further strengthening bronchoscopy education and training in Malaysia.

The organizing committee would like to express its sincere appreciation to all faculty members, participants, sponsors, supporting staff, KPJ Damansara Specialist Hospital 2, PPKP, MTS, and MABIP for their invaluable contributions towards the successful execution of this workshop.
