# THE 7<sup>TH</sup> INTERSTITIAL LUNG DISEASE UPDATES 2023

25<sup>th</sup> - 27<sup>th</sup> OCTOBER 2023  zoom

## COURSE OBJECTIVE:

-  To have a comprehensive understanding of interstitial lung disease (ILD), including its **classification and clinical presentation**.
-  To learn the skills in **interpreting and analysing high-resolution computed tomography (HRCT) scans** specific to ILD, with a focus on identifying characteristic radiological features and patterns.
-  Discuss **evidence-based treatment strategies** for ILD, encompassing pharmacological and non-pharmacological approaches, with a focus on personalized and targeted therapies.
-  To foster a collaborative learning environment through **interactive case discussions, workshops, and networking opportunities**, allowing participants to share experiences and best practices.

Supported by:

Boehringer  
Ingelheim
