

ERS Course

Virtual masterclass in airway diseases

20 – 21 May, 2021

The virtual masterclass will provide an overview on treatments and standard methods in evaluating the physiology and biology of asthma and chronic obstructive pulmonary disease (COPD).

Join us online for:

- Plenary sessions
- Updates on guidelines
- Practical workshops
- Networking opportunities
- Interactive clinical cases

Topics

- Biological phenotypes and endotypes and their clinical implication
- Biological therapy in airway diseases
- Imaging asthma and COPD
- Digital innovation
- COVID-19 and airway diseases
